## COMMENTS FROM 2025 PARTICIPANTS:

**HAS THE DISCUSSION PROGRAMME GIVEN YOU FULL SATISFACTION? PLEASE CLARIFY YOUR ANSWER?**

**Tiffany Hosking, Worcestershire, England:** It has surpassed any expectation (once again) because of the sheer depth of knowledge we are exposed to.

**Manoj Dayal, Secunderabad, India:** I feel fully satisfied and gained a wide exposure to a varieties of diseases and corresponding remedies as well.

**Dr. Sayali Butala, Maharashtra, India:** Learnt a lot of new Organopathic remedies. Learnt how to deal with one sided diseases and drug dependent cases. More confident about pathological cases.

## HOW HAVE THE LECTURES / DISCUSSIONS COMPLEMENTED YOUR EXISTING KNOWLEDGE?

**Tiffany Hosking, Worcestershire, England:** Brilliantly – clear indication for Miasms. Clear indications for remedies. Clear guidelines for choosing potency.

**Dr. Ridhima Gandhi, India:** Dr. Subrata Sir ... infectious energy you have ... you really inspire us to achieve what we aspire for ... your warmth, humility, and deep knowledge. The way you motivate the patients (win applause) ... the way you feel for their suffering ... The poise with which you have carried your family legacy.

Dr. Saptarshi Sir is so heartwarming... The way you make Materia Medica picturise in front of us, it appears to be live and vivid... The openness with which you teach, you have simply selfless in giving all you have and such as dedication in a teacher and a doctor is a marvellous combination.

**Carmen Adamou, England:** Very comprehensive with lots of remedy preparation and good explanations as to when to give a polychrests, a satellite remedy or an intercurrent.

This was my second visit to Kolkata and participating in this wonderful course. There is so much to take away from this course and it is such a great way to observe so many patients with complex and deep pathology. You will come away feeling so invigorating and inspired and with a better understanding of how to prescribe miasmatically in cases. If you are thinking of doing this course just don't hesitate, I wish I had done it sooner.! Thank you for an enriching 10 days in Kolkata!

**Dr. Ridhima Gandhi, India:** The punctuality ... the detailed discussion ... the openness to share with us ... the clarity ... the confidence ... the materia medica & organon knowledge ... the differentials ... everything is amazing.

**Kyriaki Kyriakidou, Greece:** Differentiation and hierarchy setting of the important things are always very good reminders of what is needed in order to have successful outcome.

I find that immersing myself in their field of expertise with whatever their menu offers, upgrades my homoeopathic practice quickly and efficiently using the necessary methods: MTEK, aetiology, upside down knowledge of 50 polychrests as well as organopathics' knowledge to support, if necessary, the well-being of the patient in today's drug-dependent world. Watching both the black-hair and the grey-hair Dr. Banerjea treating 168 patients during the Kolkata Clinical training so efficiently, despite the very short time-span, reminds me of a laser-beam method: accurate, no hassle and bussle. So, in a nutshell, by joining the Kolkata Clinical training one gets first-hand experience of old and well-tested knowledge of the Banerjea family, as well as of other renowned homoeopaths of the Mecca of Homoeopathy, making their teachings so gratifying and inspiring that hours were flying. I feel I have found the Golden Goose of Homoeopathy, so far away from where I am based, yet, when the hearts are connected, distance is nullified. May you be blessed to continue your work for generations to come!

**Would you recommend this programme to the students and practitioners, if so what would you highlight?**

**Dr. Ridhima Gandhi, India:** I will highlight – The hospitality, humility and comfort of teachers and staff here. The live cases being shown including slum Out Patients’.

**Your impression regarding the Homoeopathic Discussions & Information presented by Dr. Subrata K. & Saptarshi Banerjeas and their associates:**

**Harriet Getley, England:** Both Subrata and Saptarshi teach an inspiring, humble & honest way. They encourage us to ask questions and seem to have endless patience and good humour for answering them!

**Manoj Dayal, Secunderabad, India:** The ancestral tips, information and discussion points presented were very clear and practical distilled after decades of experience. The enormous knowledge regarding Lesser Known Drugs will go a long way in opening up drug dependent cases and one sided cases.

**Dr. Shailesh Yadav, Maharashtra, India:** Practical, live, fast with mentioning details of reasoning with demonstration various protocol of presentation. Time tested experience shared, with valid mention of master literature.

**Dr. Sujatha Bhagavati, Johns Creek, USA:** All the sessions were very organised, clear, with in depth discussions and descriptions of the topics. Plenty of practical tips and indications for miasmatic approach to case analysis, comparative materia medica, clinical tips and reference to organon and organopathic use.

**Bendalam Sree Likhitha, Visakhapatnam, Andhra Pradesh, India:** Dr. Saptarshi and Dr. Subrata Sir have imperilled a strong impression of the Classical Homoeopathy and Materia Medica analysis which is a great take away for me.

The very short time-span, reminds me of a laser-beam method: accurate, no hussle and bussle. So, in a nutshell, by joining the Kolkata Clinical training one gets first-hand experience of old and well-tested knowledge of the Banerjea family, as well as of other renowned homoeopaths of the Mecca of Homoeopathy, making their teachings so gratifying and inspiring that hours were flying. I feel I have found the Golden Goose of Homoeopathy, so far away from where I am based, yet, when the hearts are connected, distance is nullified. May you be blessed to continue your work for generations to come!

**Live case demonstration with interpretation of medical reports before and after homoeopathic treatment,  
Calcutta Clinical Programme 2025.**

**Six employed Assistant Doctors, who takes the patients symptoms for Drs. Banerjea's.**

**Dr. Subrata K. Banerjea sharing humour.**

**Perhaps the ONLY programme in the world, which demonstrate 160+ LIVE non-edited cases in 10 days, where live interaction with patient is encouraged.**

**Behavioural Materia Medica: Spot the Medicine: A Baryta Case.**

**Patient & Practitioners are smiling; Trembling, 70% better: Calcutta Clinical Programme 2025.**

**Queue of patients who are patiently waiting to be seen by Dr. Subrata K. Banerjea and Dr. Saptarshi Banerjea. Average waiting time: 3 to 4 hours. Most of the patients are travelling an average of 500 miles.**

**Five Dispensing Chemists are employed to make the medicines efficiently and deal with the quantity of patients. Consulting Room of Dr. Subrata K. Banerjea and Dr. Saptarshi Banerjea at Creek Row, Central Calcutta.**

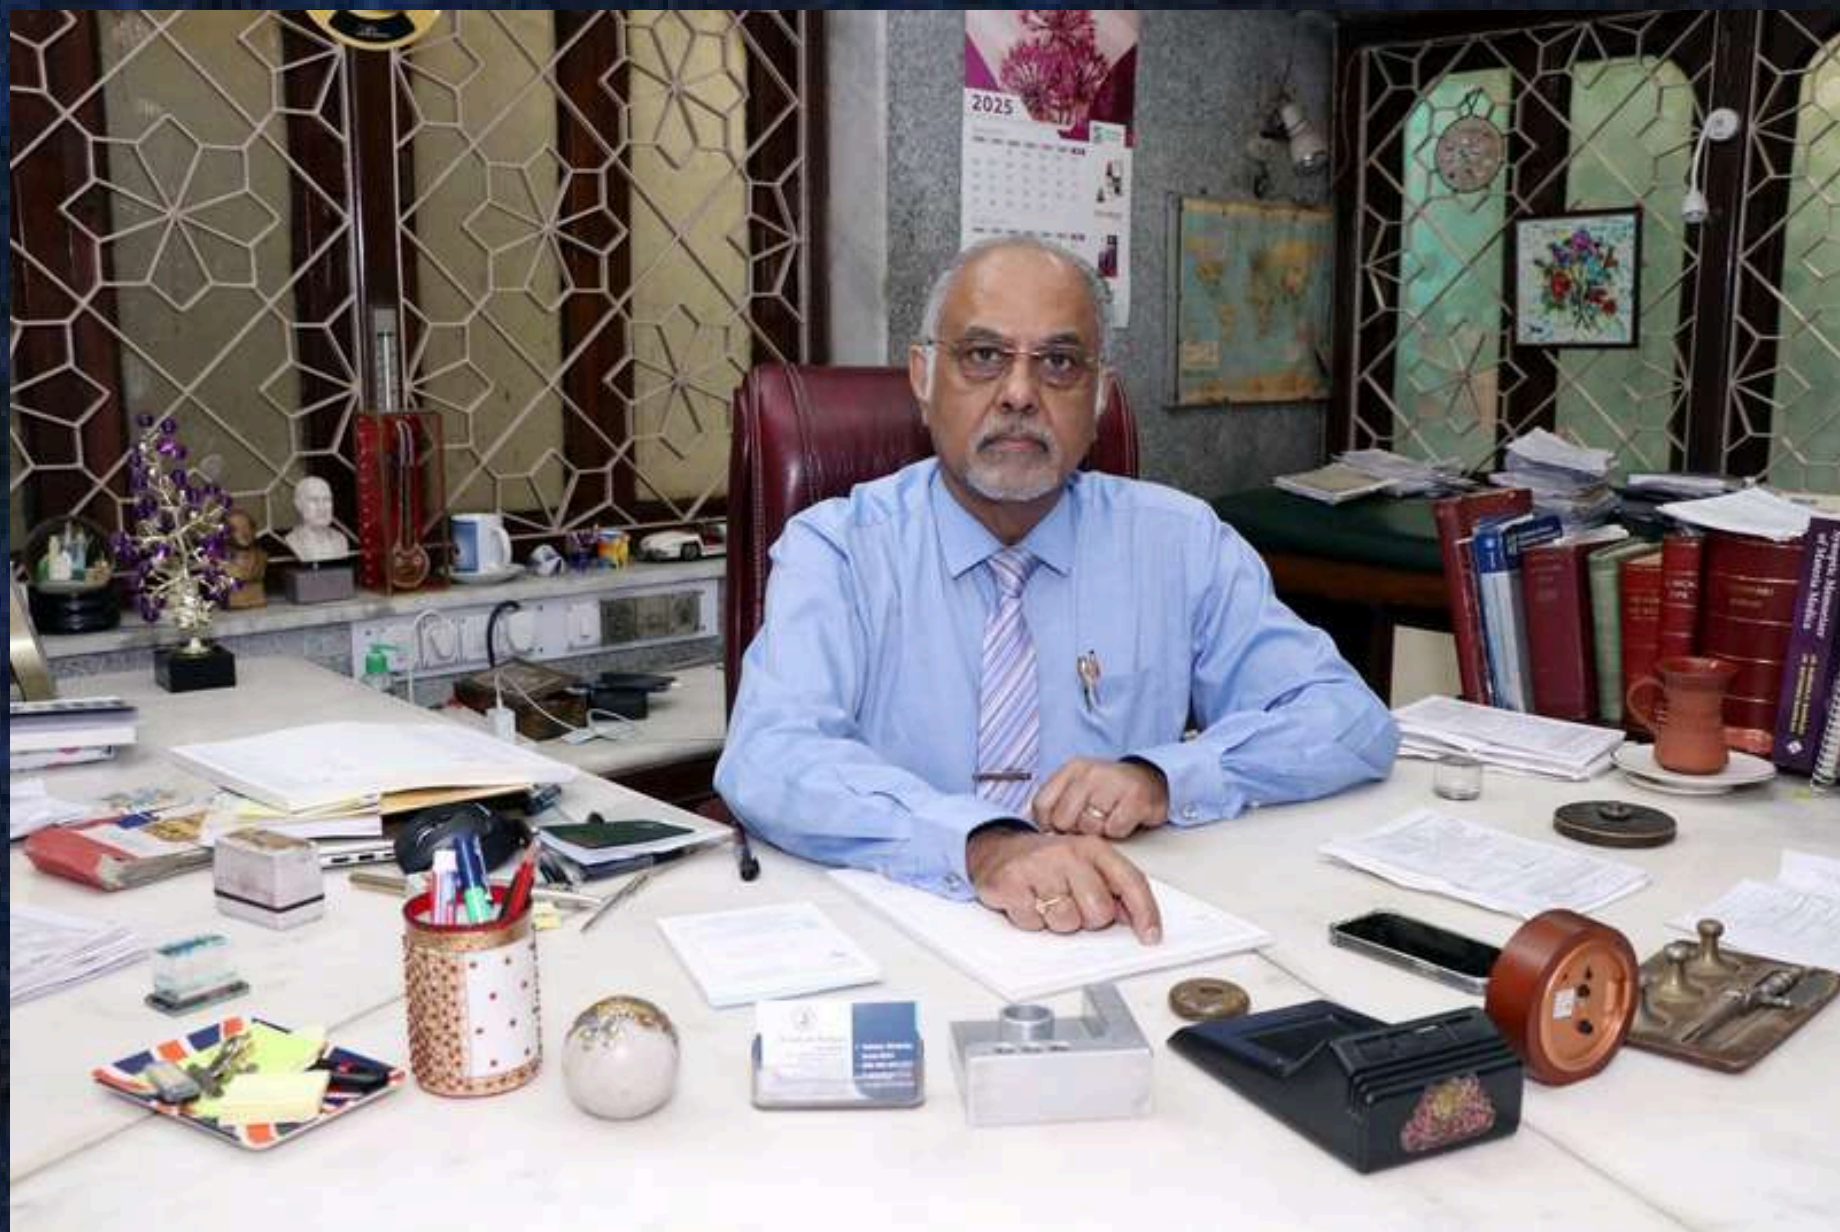

**Lots of follow-ups of cases of varied pathology. All Participants are amazed by the power of “Simple Classical Homoeopathy” which works!**

**Even the participants sitting at the back of the classroom, enthusiastically listening the strength (demonstrated through 160+ Live Cases in 10 days) of “Simple Classical Homoeopathy” in the Drug Dependent World. Perhaps the ONLY programme in the world, which demonstrate 125+ LIVE non-edited cases in 10 days, where live interaction with patient is encouraged.**

**Dr. Saptarshi Banerjee's live demonstration of a bi-polar disorder.**

**Dr. Subrata K. Banerjee in his private consulting room, Creek Row, Calcutta.**

**Patients patiently waiting to be seen.**

**Clinical & Comparative Materia Medica by  
Dr. Saptarshi Banerjee.**

**Dr. Saptarshi Banerjea in his Creek Row, Calcutta Chamber**

**Dr. Saptarshi Banerjea seeing Patients in his Creek Row, Calcutta Chamber.**

# THANK YOU
